

## Vertava Health – Sherrodsville, Ohio

**Now offering private rooms!**

At Vertava Health Ohio, we offer treatments for **substance use disorders** and **co-occurring mental health symptoms** that are designed to promote lasting sobriety and recovery from addiction.

Following American Society of Addiction Medicine (ASAM) guidelines, our inpatient treatment programs ensure the **highest quality** of addiction care in a safe and comfortable environment, including **private room options**. We also offer **virtual care** to help individuals in various stages of recovery.

Our Ohio alcohol and drug treatment center focuses on each person's **unique needs** and **recovery goals**. **Individualized** addiction treatment plans include **evidence-based** programs as well as activities designed to enhance the recovery experience and promote personal growth. Individuals will receive guidance and support throughout the recovery process from our team of **experienced and compassionate professionals** in the addiction field including counselors, therapists, and medical personnel.

At Vertava Health, our goal is not only long-term recovery but also happier and healthier lives for our patients and their loved ones. Through the use of evidence-based treatment modalities and under the guidance of licensed professions, **we strive to help patients find lasting success in recovery.**
